CEO SPACE does not participate in student business projects at any level. CEO SPACE does not accept stock or fees or otherwise act as team between class sessions in order to provide an impartial “equal access rule” to our service. Although CEO SPACE does not guarantee student use or application of the training lessons, CEO SPACE does operate a zero tolerance policy related to faculty and coaches. Unresolved complaints by graduates toward a coach or faculty member DO result in a termination of these independent contractors from future network functions. This policy places CONSUMERS FIRST. Under our equal access policy, CEO SPACE provides the same service to a single mom as it provides to a CEO of a multi-million dollar company. No distinction in personal time and attention. The only “equal access” market of its kind in the world. Cooperation becomes an example of this policy in action.

…We all need to choose our best mentors..
