

Why Do Young Adults (TEENS) Come to CEO SPACE?

Saturday, 29 September 2007

CEO SPACE youth training programs are hosted so that teens attend many of the adult Free Enterprise sessions with their parents or guardians (guardians required). Teens attend adult classes for only \$900.00 a week, which includes meals and second teens in same family attend at \$500.00. Tuition for teens is subsidized by CEO Space. Teens attend to improve study habits, to learn Free Enterprise Skills, and to associate with valuable contacts. The majority of CEO SPACE teen graduates start their own business as a result of attending, or earn substantially more than non CEO SPACE graduates. After two decades, many teens from earlier classes are now investors. CEO SPACE teen programs help teens to discover context for their studies, as teens learn how to become a full partner with their system. CEO SPACE teen graduates are tomorrow's proactive leaders. Testimonials related to CEO SPACE youth training have become legend in public and private education and with the parents we serve. Hundreds of CEO SPACE teen graduates are now parents, themselves, working on bringing Super Teaching to the schools their children now attend.
